

**ARC-PA**

*Accreditation Review Commission on Education  
for the Physician Assistant, Inc.*

# COVID-19 & ARC-PA By the Numbers

October 2020

PAEA Annual Forum

From Class to Clinic: Research and Data from the Four Orgs

Rachel Carlson, EdD, PA-C

Assistant Director

ARC-PA

The ARC-PA is the **recognized** accrediting agency that **protects** the interests of the **public**, including current and prospective **PA students**, and **PA profession** by **defining the standards** for PA education and **evaluating** PA educational programs within the territorial United States to **ensure** their compliance with those standards.

## **ARC-PA Mission**

# Timeline

- March 10: Joint Statement from ARC-PA & PAEA
  - Didactic Coursework guidance
  - Supervised Clinical Practice Experiences (SCPEs) guidance
- March 20: Update
  - ARC-PA does not dictate the length of SCPEs
  - “Waiving program requirements for students to meet SCPE learning outcomes is unfortunately not an option.
  - Programs that need to extend their completion dates should notify the ARC-PA.
- March 31: Update
  - The Commission strongly supports programs removing students from clinical sites **until the assurance of proper PPE is available.**
  - The ARC-PA has never mandated graduation requirements.
  - No drastic ‘short-cuts’ should be made to PA education that may release graduates who are not ready for practice. The program must assess students to determine they have met program-required competencies prior to graduation
  - Average response time for plans is 1-2 weeks

# Timeline

- April 13: Update
  - ARC-PA does not plan to penalize program for decisions made during the pandemic to keep students safe.
  - The ARC-PA defines supervised clinical practice experiences (SCPEs) as: Supervised student encounters with patients that include comprehensive patient assessment and involvement in patient care decision making and which result in a detailed plan for patient management.
  - Programs may use virtual experiences, simulation or other technology to meet some of the program defined learning outcomes for SCPEs, but the intention remains that *SCPEs will include some direct patient care*, meet the program defined learning outcomes, and be of sufficient breadth and depth to prepare students for the clinical practice of medicine.
  - Telemedicine may be used to meet SCPE learning outcomes in some cases but has its limits.
  - Grading policy change guidance
- April 17: Updated COVID-19 Change forms available

# Timeline

- May 4: Update
  - Are all programs required to complete the COVID-19 change forms?
    - The Commission wants to see plans for programs with substantial changes to the curriculum
    - Programs continue submission of changes as outlined in the E-section of the ARC-PA Standards as they occur.
    - COVID-19 reports should be made if the program made any changes to:
      - length of program (longer or shorter)
      - curriculum for any cohort
      - matriculation dates of any cohort
      - graduation dates
      - changes to cohorts start or end dates in SCPEs
      - teaching modalities for any cohort (for example, moving to online teaching use of virtual rotations, etc.)
  - 125 Covid-9 forms submitted/reviewed

# Timeline

- August 11: Update
  - Programs have experienced the need for change in their submitted plans in light of evolving situations and decisions made on home campuses.
  - The ARC-PA expects the submission of a new COVID-19 form for programs that have changes or new details to report to ARC-PA.
  - Program faculty and staff participation in onsite screening
  - Program faculty and staff participation in contact tracing
  - 266 COVID-19 Change forms received, reviewed, processed
  - Over 110 emails responded to regarding COVID-19 questions and clarifications

# Current

- As of September 25, 2020
  - 239 Programs submitted program change forms/emails related to COVID-19
  - 90% reviewed before June Commission Meeting
  - Assistant Director, Commissioner, Assistant Director of Accreditation Services & Executive Director

# Data Collected

- COVID-19 Change Forms submitted for June & September Commission Meeting
  - Self-reported
  - Voluntary
  - Open-ended questions
  - No forced responses
  - Timing varied of submission
    - March through August
- Portal Alerts
  - Self-reported
  - E standard requirements
- Manually extracted, descriptive data

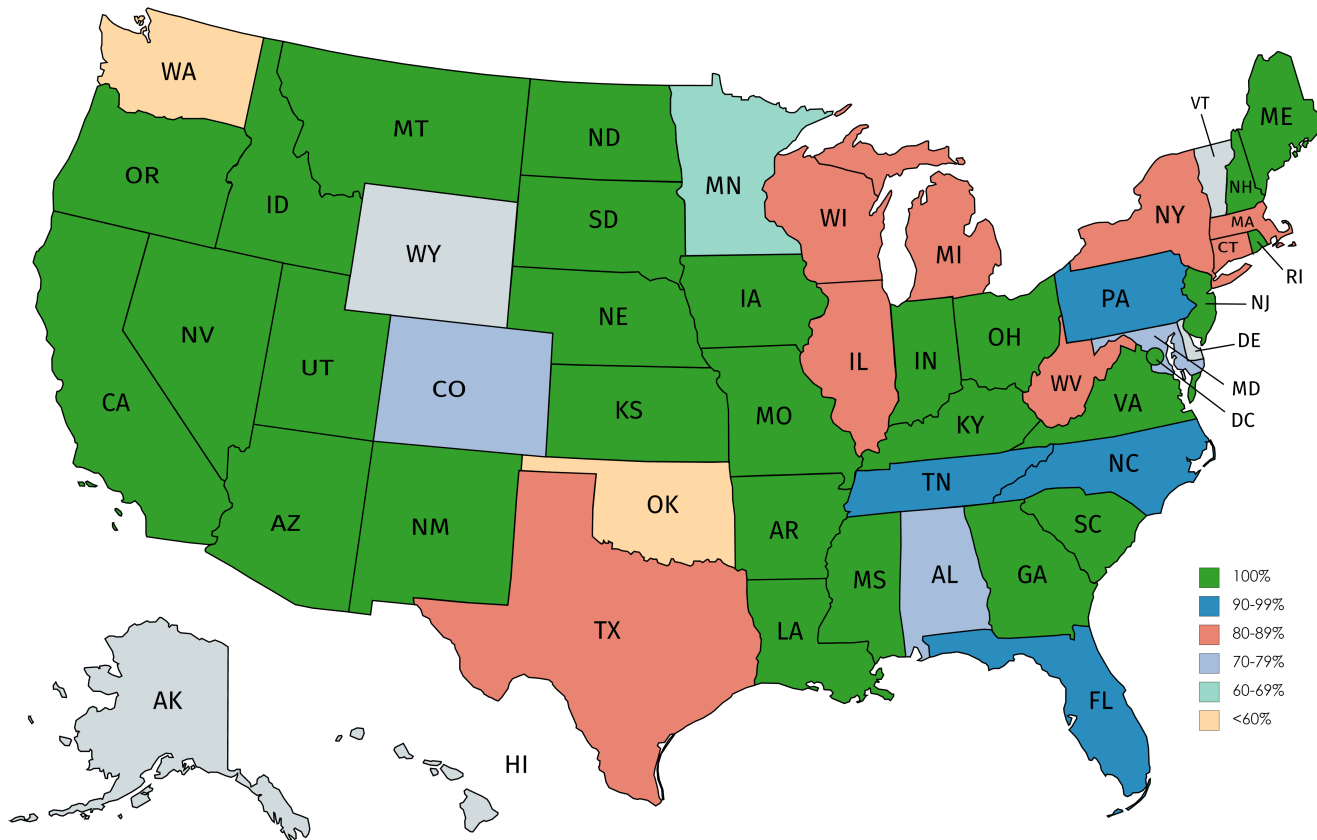

# Demographics

239/260 Accredited Programs as of June 2020

Programs who didn't submit

- 9 Provisional Accreditation March/June 2020
- 3 Accreditation-Provisional
- 9 Accreditation-Continued

All regions had submissions

# Program Submission Percentage

# Program Length Changes

## Graduation Changes

- 46 Programs change in graduation month; 2 permanent
- Range: 1- 6 months
- Mean: 2.1 months; Median: 2 months; Mode: 1 month
- Many programs delayed within the same month not counted

## Didactic Length

- 1 program shortened by 1 week
- 12 programs lengthened by avg of 1.5 months; Range .25-3 months
- None listed as permanent

## Clinical Year Length

- 17 programs shortened by avg of 1.5 months; Range .25-3 months
- 34 programs lengthened by avg of 1.9 months (1 outlier removed); Range .5-15 months
- None listed as permanent

# Delays

## Matriculation Delays

- 7 programs
- Avg: 2.1 months
- Range: 2 weeks-6 months
- 3 permanent

## Clinical Year Delays

- 34 programs
- Avg: 1.6 months
- Range: 1 week-4 months
- 3 permanent

# Didactic Curriculum Changes

# Clinical Curriculum Changes

Gap analyses based on learning outcomes

Test out option

Removed Vacation weeks; changed call-back days (virtual and/or shortened)

Resequencing

Rotation types

Capstone/Master's projects

End of program didactic courses/reviews

# Rotation Length Changes

## Reduction in direct patient care hours

- NY constraints (1600 hours minimum)
- Several reported 50% reduction

## Increased length of time to complete competencies

## Reduction in patient encounters/rotations

## Reduction in Community Preceptorships/Final Rotations

- 3 programs reported 4-6 weeks

## Weeks/Number of Rotations

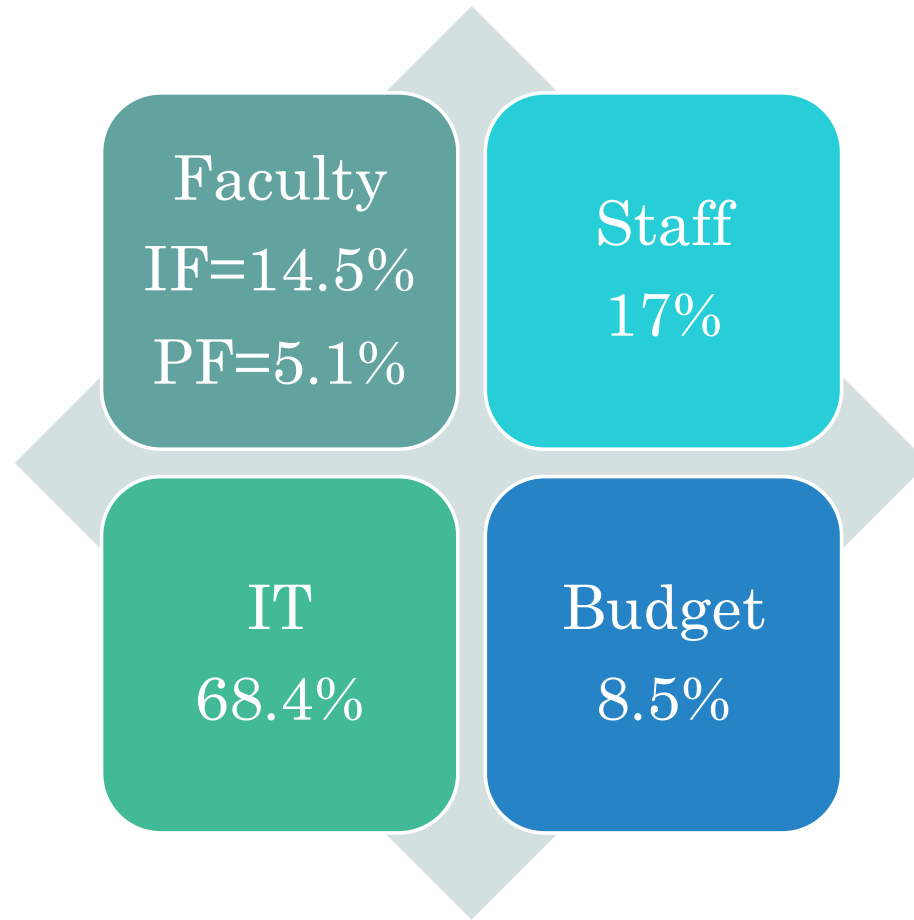

- 117 programs reported
- Range of rotations applied: 1-10
- Range of weeks reduced: .5-3 weeks
- Average length 1.6 weeks

# Rotation type changes

- Elimination of duplicate types of rotations:
  - e.g. IM, FM, Primary Care
- Elimination of “non-ARC” required rotations:
  - e.g. PMR, Ortho, Urgent Care
- Telemedicine patients:
  - e.g. Behavioral Medicine
- Non-clinical electives: virtual/academic/didactic
  - 110 programs reported
  - MAT
  - COVID-19
  - Pandemic
  - FEMA training
  - Supplemental content
